WE, THE TEACHERS OF THE PUBLIC SCHOOL for Victoria City and District, finding it impossible to continue teaching, in consequence of non payment of the monies due to us for our services, are reluctantly obliged to close the School till such time as proper provision shall be made for punctual payment of our salaries.

Eighteen months have elapsed since the new School Ordinance became law, during which time we have only received from all sources six months' pay. We deem this explanation necessary under the circumstances; and believe that a discriminating public will not censure us for taking a step which is unavoidable

Despairing of ever being cured I placed myself as a last resort in the hands of Dr Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief Respectfully.

Railway Land Grants.

There are still to be found those who regard the policy of handing over to Railway Corporations large blocks of the public domain with no friendly eye. Theoretically considered, land monopolies are pernicious. As a rule they are so practically. A careful consideration of the question will, however, lead to the conviction that the system which forms the immediate subject of the present remarks may not be open to those cogent objections which generally lie against land monopolies There is but one legitimate use for the lands of a new country—of any country—viz. to be placed in the possession of those who will the most effectually cause them to yield food for man and beast. If it can be made to appear that this can be more effectually accomplished in the hands of a Railway Company than through the ordinary medium, then must all objections fall. And we do not apprehend much difficulty in establishing that proposition. A Railroad Company, undertaking, for instance, the construction of a railway across the American Continent through British territory, must necessarily represent enormous capital, far beyond that employed in the immediate prosecution of the enterprise. In accepting land grants through a wild and uninhabited country, either as a part payment for the work, or as a sort of premium for the investment of capital in an enterprise presenting no visible means, or at best, very remote means, of yielding profitable returns, there must be assumed on the part of the company a *bona fide* intention to render such lands reproductive. It will be observed that such a company would have a double motive in doing this. First, to realize upon the lands; and, secondly, to create, by settlement and development, traffic for the railway. In this way a railway company would have presented to it much stronger and more tangible motives to promote colonization than are commonly presented to Governments, while their financial connections and influence over the various means of transport would enable them more economically and efficiently to carry out a systematic scheme for settling their lands. When this railway land grant plan was first inaugurated in the United States, there was no little outcry raised against creating such gigantic land monopolies, and the prodigality of governments in handing over thousands of square miles of the public domain to railway companies formed the subject of the severest animadversion. There were not wanting, however, those statesmen of large and advanced vision who saw, or thought they saw, the end from the beginning, —men who welcomed the railway system as the most effective means of opening up, settling up and developing new territory. It was a new and startling theory to make railways the forerunner, the procuring cause of settlement and traffic. Has this new theory succeeded? Has the system of making large land grants to railways constructed through new and unsettled countries verified the predictions of its advocates? For, theorize as we may, practical experience is, after all, a monitor not to be despised. The Illinois Central Railroad was, we believe, the first in respect of which the land grant plan was adopted upon a scale of any considerable magnitude; and, inasmuch as sufficient time may be considered as having elapsed to enable one to form a tolerably correct judgment as to the results of the system, in that instance at least, it may not be altogether unprofitable to glance at results. It may be asserted generally that the railway in question was chiefly instrumental in opening up the great West which did so much for the United States. The great and marvelously productive States which it created, and populous towns and cities which sprang up as if by magic along its course, presumably owe their existence to that first railway through the wilderness. Referring to the more immediate returns for the lands conveyed to that company, the San Francisco *Bulletin* says:—

'It is reported that the Illinois Central Railroad has paid back to the Federal Government, in freights carried on that account, not less than $20 an acre for all the lands which it derived from the Government. Most of these lands were not worth at the time of the transfer, more than $2 per acre in fact they had been for years a drug in the market at $1 25. Not only did the Government gain largely, but the people derived even greater benefits.'

Nor is there any reason to believe that the land grant system will be less beneficially applied to the construction of the Canadian Pacific Railway. There would not appear to be any reason for doubting that the selfsame beneficial results will follow in a much larger degree. We should be disposed to regard the railway company in the light of a gigantic colonizer, by handing over the lands to which the Government would avoid all the trouble and expense commonly incident to those schemes usually employed with but partial success.

Smith on the 'Situation.'

Mr Robert Smith, of Lytton, is a candidate for the representation of the Yale-Lytton District in the Legislative Council, and his *pronunciamento* is published in the Cariboo paper. There are in this address two or three points worthy of attention. Mr Smith declares himself very emphatically in favor of Confederation, Responsible Government, and the immediate acceptance of the Canadian Tariff of Customs. Indeed, that was to have been expected; for, altogether apart from Mr Smith's personal convictions, it would be useless for any candidate to come before the constituency with any other political creed. On the question of the Tariff he says:—

I am in favor of the Dominion Tariff on these grounds:—That it is equitable; that it will save at least $130,000 per annum to the Colony, whereas with the continuation of the existing tariff that amount and more would yearly slip into the Dominion treasury in support of a false political plea, called protection, whereas there is nothing to protect, and that in order to save not only the sum of a $130,000 to the colony, but also that it will serve as a preventive to any unnecessary political agitation hereafter.' In regard to the political constitution he says 'I will support as one of the conditions of union the introduction of a free form of government on a responsible basis, giving to the people, with union, the management of their own local affairs. Our popular local parliament to constitute one chamber, composed of twenty members; six of whom, having the confidence of the people, will represent the Government, their tenure of office depending on their having a majority in the House. Any form of Government for British Columbia, whose institutions are not free and responsible, I will oppose.'

Upon these points the views thus enunciated will, we feel assured, commend themselves not only to the electors to whom they are more immediately addressed, but to the great bulk of the colonists. Mr Smith will excuse us, however, for saying that, although most heartily endorsing his views upon these the leading political topics of the day, we are scarcely prepared to endorse him as the most suitable person in the present emergency to advocate these views on the floor of the next Legislative Council. The present member for that District has already rendered good service to the cause of Confederation and Responsible Government, as well as to those he more immediately represents; and it would be strange, indeed, if the people of Yale-Lytton District should now cast him aside when about to complete the great work which he has acted such a prominent part in bringing to its present satisfactory and promising condition. Indeed, we should be greatly surprised to find Mr Smith opposing the reelection of the present member, holding, as he does, the same political views; and we are rather inclined to attribute the publication of his address to a desire to give his political creed an airing, rather than to any serious intention of offering opposition.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Europe.

CHICAGO, Oct 8—The *Times* of this city has the following dispatch this morning:—LONDON, Oct 7—Considerable uneasiness was manifested in diplomatic circles to-day over the news from Vienna that an extraordinary Cabinet meeting had been held this morning to consider the note from Berlin. The opinion is general in diplomatic circles that a rupture is imminent between Austria and Prussia. It is certain that the orders for the disbandment of the Austrian army of observation on the Prussian frontier had been secretly countermanded and every nerve has been strained for the past two months to place the army on a war footing. Von Beust, Austrian Premier, exiled from Germany by Bismarck, who was jealous of his reputation as a statesman, has been intriguing with several German States and with such success that it is believed to have called forth a note from Berlin demanding an explanation.

VIENNA, Oct 7—An extraordinary Cabinet meeting was held. It is rumored that serious complications have arisen with the Prussian Government.

The Eastern *Correspondence*, Von Beust's official organ, to-morrow, will contain a reply to articles in the Prussian *Gros Gazette* of yesterday, saying the Government earnestly desires peace but it can never permit Prussia to become the dominant power of Europe. This, it adds, is now the avowed determination of Bismarck and his Royal master.

Prince Frederick Charles left to-night for Prague.

NEW YORK, Oct 8—Later correspondence from Vienna states that the most intimate relations exist between Austria and Russia, and in the event of the latter power making demonstrations against Prussia, Austria will certainly become her ally. It is believed, upon good authority, that a secret alliance of an offensive and defensive character has already been concluded between the two Governments.

LONDON, Oct 8—The Italian Government has formally repudiated any designs looking to the reannexation of Nice and Savoy

A dispatch from Epernal, of the 7th, reports sharp fighting yesterday between Laon Letape and Bruges, in the Department of Vosges. The Prussian force consisted of 9000 men. The French force was not so large and had less artillery than the Germans. The fighting lasted all day and when night ended the conflict it was undecided. The French held their position; the Germans attempted to carry it a number of times. Gen Dupree, French commander, was slightly wounded in the engagement.

The Prussians have arrived before New Brisach and skirmishing has already commenced.

There are no Prussians in the Department of the Aube.

The Prussians again threatened Geressich but were repulsed by the National Garde.

The redoubt of Pierre Pette, near St Denis, was abandoned by the French 5 days ago, owing to its being untenable.

TOURS, Oct 8—It is reported that Gambetta recently left Paris in a balloon and landed safely outside of the Prussian lines. It is said he is now on his way to Tours

Petheviers is now occupied by the French.

The *Journal de Brussels* is responsible for the story that negotiations are now pending between the German Government, backed by Russia, and Napoleon, the object being to prevent the establishment of a French Republic.

ST QUENTIN, Oct 8—It is reported that the entire German force which has been operating in this direction is now moving upon Soissons, which is capable of making every defence.

LONDON, Oct 8—It is not thought that the Prussians will take any action to oppose the convention of the French constituent assembly.

TOURS, Oct 8—A dispatch from Freiburg to day says Newbressach having refused to surrender the Prussians to-day opened a cannonade at several points. A fire broke out in the town in consequence.

The *Constitutionel* to-day announces that the arrondissements of Mayen have chosen the Count of Paris and Gens Trochu and Bazaine as candidates to the constituent assembly.

It is again reported to-day that the government will be obliged to quit Tours after the election. Bordeaux is likely to be chosen capital.

Twelve hundred Garibaldians have arrived in France, commanded by Trafiole.

VERSAILLES, via London, October 7—The French maintain a vigorous cannonade upon the Prussian outposts.

CORREY, Oct 7, via London, 8—Yesterday when the French forces attacked Kummer's division, the French Imperial Guard was engaged. The French directed several divisions against the 1st and 10th Prussian corps, stationed on the right bank of the river Moselle. The cannonade was severe and the loss in Kummer's 10th corps amounted to 9000 men, 1st corps 1300 men.

LONDON, Oct 8—Berlin telegrams say the French occupy Villeneuif.

TOURS, Oct 8—Gambetta is here. Garibaldi is expected to-morrow.

News to the 7th states that the francs-tireurs were defeated at Ablais. One hundred and thirty Prussian hussars captured sixty French.

LONDON, Oct 8—A correspondent at King William's headquarters states that the assault on Paris will begin on the 18th—the anniversary of the battle of Leipsic.

The Prussians have appeared at Matisgrosders.

VERSAILLES, Oct 8—Last night the entire garrison of Metz, including the National Guard, made a sortie on both banks of the Moselle. The attack was on the entrenched position of Uperman, and was repulsed. The French loss was 1500 men, Prussian loss was 600 men.

BOMBAY, 5th via London, Oct 8—It is reported from China that Prince Kong has been murdered.

Eastern States.

WASHINGTON, Oct 8—All the members were present at the meeting of the Cabinet except the attorney general, postmaster general and secretary of the interior. The proclamation to be issued will declare that the bays, waters and harbors of the United States shall not be used in preparing for war by the belligerents That a ship of war of either belligerent shall not leave any port of the United States within 24 hours after the departure of a merchant vessel of the other belligerent. That war vessels of either belligerent shall not remain in United States ports more than 24 hours except for needed repairs or supplies, and that a war vessel of either party having once entered a United States port shall not reenter one until after having visited a European port of its own government. The making of our ports depots for the supplying of materials of war to the belligerents is also prohibited.

Proper officers of the United States will be instructed to enforce the provisions of the proclamation.

It is ascertained that private dispatches were sent all over the country announcing the run on the Hibernian Bank and intimating that the institution would probably fail. It is also demonstrated that reports of there being a run were industriously circulated for two or three days before the run commenced. Evidently several parties are acting in concert in the matter in order to get up a panic. The run is wholly over and the Bank has not been obliged to change any of the details of its regular business.

It turns out that Botherton Bros, convicted of forging Treadwell & Co's checks, are old forgers, having been in that business in Philadelphia. George had been stabbed and shot at by friends of another of the gang whom they got into the State prison on a charge of forgery in which they were themselves implicated. Howard is also an old operator, and the Philadelphia detectives are congratulating themselves on having got rid of the gang so easily and for so long a time.

LOS ANGELOS, Oct 9—Two men, named Brennan and Marney, were attacked by Indians. Favored by the shelter afforded by some rocks, they fought bravely for two hours, killing one Indian and wounding several others when the attacking party left for parts unknown.

The adjournment of the elections will be maintained till they are possible throughout the Republic.

CHARTRES, Oct 8—The Prussians are at Drouc.

The Prussians concentrated near Pitheres on Saturday, where the French awaited attack.

The Badeners report the French force to be double theirs—numbering 14,000 men.

The Bois de Junules has been carried by the Germans with the bayonet. Three French charges were repulsed. Germans lost 20 officers and 410 men, killed and wounded. Enemy's loss is thrice as great. Germans took 6 officers and 600 privates prisoners, and camped on the field.

LONDON, Oct 8—The Tribune's correspondent before Metz telegraphs the following:

This evening Bazaine made a desperate attempt to crush through the Prussian line in the direction of Thionville. The Prussians on the previous evening had driven the French from the village of La Dominchamps and established five posts in Struany, Grand les Dipes and Maxe. Under cover of a thick fog Bazaine advanced and commenced the attack for the recovery of La Dominchamps. Having engaged the Prussians the artillery made a dash for Petites and Grand les Dipes, annihilating the five posts and throwing great masses of men on their supports. When these villages had been occupied Bazaine sent a heavy force on the right close to Moselle, which advanced up the valley till checked by the Prussian artillery from both sides of the river, and was finally stopped by the advance of two landwher brigades which occupied a position opposite Garde Petite and Etanges. A batallion of the 5th and 8th landwehr regiments was nearly exterminated. Other batallions of the same regiments and the 59th landwher suffered severely. Finally, at 4:35 the French were driven back from all their positions by the advance of the Prussians. There was sharp bayonet fighting in the villages. The Prussian victory was complete. The loss in killed and wounded is considerable, the French loss being heaviest. The whole of the Prussian 10th and 30th army corps and landwher divisions were engaged. Gen Van Voight commanded.

PARISON-VILLE, Oct 8—Shells from St Julian go screaming into this place.

VERSAILLES, Oct 8th, via Berlin—Advices from Depenfield state that Bnddenbrock on Thursday defeated the French General Dupre, commanding a force of regulars and large masses of riflemen Dupre was wounded and his army demoralized.

BERLIN, Oct 9—A special to the Tribune says it is now finally decided at headquarters not to reassemble the present Prussian Chambers, but dissolve them and order a new election, when none but trustworthy men will be selected. A Government minority is expected. Bismarck has refused to release Jacoby.

The siege of Soissons is progressing favorably.

LONDON, Oct 9—A correspondent at Bologne telegraphs that there is no doubt that Bazaine is cordially cooperating with the Government at Tours and with Trochu at Paris.

The army of Lyons is advancing by way of Nancy to relieve Bazaine. It was the right wing of this army which had the battle with Baden troops on Thursday.

TOURS, Oct 9—Nay, who left Paris in his balloon, has dates to the 6th He says there was much cannonading around Paris. Under cover of a thick fog the enemy had endeavored to make some movements, but were defeated by the sharp watch kept. On the 4th the enemy was dislodged from Longuville and other villages. On the other side of the city some skirmishing took place, but no serious engagement.

One hundred American volunteers arrived in Tours to day and marched through the streets carrying the American and French flags. They were warmly greeted by the people.

TOURS, Oct 9—M Gambetta has issued a proclamation to the people of the Department. After reviewing the position of affairs at Paris and showing the preparations made by Government for months to maintain themselves, he says the situation imposes upon us great duties. First of all it is necessary for you to cease to be diverted by any preoccupation which may not be war—combat à la outrance. Second—When peace comes accept fraternally the authority of the Republic, a power proceeding from necessity and right, and a power which would not exist at this moment were it exercised for profit or any personal ambition.

NEW YORK, Oct 9—The 'Times'' special from London says the controversy between Prussia and England in regard to the violation of her neutrality by supplying arms to France is growing more and more serious. Bernstoff's delay in replying to Earl Granville's last communicati n created a bel of that Prussia had abandoned the discussion. The strong dispatch sent to the Foreign Office to-day explains that the delay was due to a hope of peace, which now disappears. It reviews the whole question at great length and points out how the English Government has shifted its ground, and furnishing proof of all alleged supplies to France. When the proof was furnished Granville declared the traffic legitimate; that the Custom authorities had no power to stop it, and imputing to Prussia a desire for a benevolent neutrality from England.

LONDON, Oct 10—Balloons are constantly leaving Paris, and are always closely watched by the enemy. Two balloons containing a large amount of official correspondence have been captured,

The Prussians are pushing their works near Meudon and the Brimbocian heights, near Sevres. When they are completed their artillery will command Autenile, Passy, Grenelle and other points WSW of Paris.

The Tours Government is beginning to prepare the people through the press for the cession of French territory to Germany.

Le Liberte consents to a slight rectification of the frontier near Weissenburg.

Heavy guns have been brought to bear upon Pfalsburg and the fire will soon be opened.

Heroic sorties are incessant at Metz. The Prussian commander has given orders for increased vigilance, and the Prussian commissariat has been removed to avoid capture.

The foreign ambassadors at Tours are negotiating for quarters at Bordeaux in view of the contemplated removal of the Government thither.

VIENNA, Oct 10—Thiers had an interview with the Austrian Emperor on Sunday, which is said to have been satisfactory.

TOURS, Oct 10—Gambetta's proclamation has the following: By order of the Republican Government I have left Paris to transmit to you the hopes of Parisians and others of those who are seeking to deliver France from the foreigner. Paris has been invested for 17 days, and now presents the spectacle of two millions of people forgetting their differences to withstand an invader who expected to find civil discord and revolution and Paris without guns or arms of any kind. There are now under arms 400,000 national guards, 100,000 mobiles and 60,000 regulars. The foundries are casting cannon, and women make millions of cartridges daily. Every battalion of the national guard has two mitrailleuses, besides field pieces, and they are preparing for sorties. The forts are manned by marines and supplied with artillery of the greatest excellence, served by the first gunners in the world. Hitherto their fire has kept the enemy from erecting the smallest work. The enciente on the 4th inst had only 500 guns; now it has 3500, with 400 rounds for each. The impregnability of Paris is no illusion. It cannot be captured or surprised, and there is no danger of the sedition or starvation on which the Prussians counted.

LONDON, Oct 10—Bismarck recently informed the Mayor of Versailles that the Prussians had no objection to the elections for the national assembly, but that the Tours Government had countermanded them.

ST PETERSBURG, Oct 10—Jessallen officially denies the reported movement of the Russian army towards the Turkish frontier.

The Liberte publishes dispatches announcing several successful sorties by Marshal Bazaine. It says this success is the reason why recent Prussian dispatches make no mention of affairs at Metz.

Prince Frederick Charles is ill with typhus fever and has been compelled to leave the army. He is now at Ferrieres.

Dispatches from Maintenon, Malesherbes, Lagrange and Chartres announce the presence of Prussians at those places.

Several encounters have taken place at Draul.

The Loss of the Captain.

Last night's mail dispels the mystery which hung around the loss of this noble ship. The gunner, with seventeen of the crew, who escaped, had arrived at the Admiralty in London. At 2 o'clock on Wednesday morning the Captain was in close company with the ship of the Admiral, Sir Alexander Milne. At day break she was missing. It now appears from the account of the survivors that a heavy squall struck her. She yielded to its force and capsized. Capt Burgoyne was on deck at the moment. He ordered the top-sails to be lowered and the sheets to be let fly; but as the vessel laid over the bottom of the hurricane deck was exposed to the full force of the wind, and, acting as a huge sail, pressed her lower into the water until she turned completely over. Her deck was burst in by the immense weight pressing upon it. She filled with water and went down like a stone. 'In a dark and stormy night,' says the *Times*, 'without a moment's warning, the waves of the Atlantic engulphed one of the noblest prizes they have ever yet snatched from human skill and courage.' Amongst those who went down with the Captain were her inventor, Capt Coles, a son of Lord Northbrook, and a son of Mr Childers.

MINING MACHINERY.—Allusion was made some time ago to the mining machinery being manufactured at the Pacific Iron Works, San Francisco, for Messrs Lane & Kurtz, to be employed on 'The Meadows,' William Creek. In a late number of the *Alta California* we find quite a lengthy and interesting article giving a description of the machinery and the great enterprise in which it is designed to be employed. 'The machinery,' says our contemporary, 'is designed for pumping, hoisting, and also for driving a sawmill, and is of finished and workmanlike appearance. The engine constructed for this purpose is rated at 60-horse power, and has two tubular boilers with steam drum, each 44-inch diameter and 14 feet long. It has two 10-inch Cornish pumps capable of throwing, if necessary, 2000 gallons per minute, and a hose pumping-engine, with 15 inch cylinder, capable of throwing 350 gallons per minute. The machinery is all of the most substantial nature.' The machinery appears to have attracted great attention in San Francisco. It was to have been shipped by the schooner C L Taylor, on Saturday last, and will be due here in the course of a week or ten days.

THE MUTUAL LIFE INSURANCE COMPANY, of New York, shows by its statement cash dividends to the amount of $3,698,830 for 1869. These dividends can be added to the policy and go on compounding, or can be used in reduction of the payments falling due, as the policy holder may desire, thereby reducing the actual cost of insurance very materially. These dividends are promptly declared yearly and a statement of the same furnished each policy holder. Col Dudley Evans, at Wells Fargo & Co, is the Colonial and Washington Territory agent for this great corporation.

FROM OMINECA.—Mr David French, with 6 other miners, arrived from Peace River yesterday, by way of the Skeena, in a canoe. The party left Vital Creek before the new discovery was made on Germansen Creek, and consequently bring no later news. Mr French informs us that his party prospected on Skeena river on their way down, but without much success.

FROM SAN FRANCISCO.—The steamer Pelican, Capt Gregory, arrived from San Francisco last evening at half-past five, bringing about 120 passengers, 75 tons of freight and a large mail. The Pelican was a few hours over five days in making the trip, and experienced pretty heavy northwest winds.

THE mail steamer Isabel, Capt Starr, arrived from Olympia and Sound ports last night at a quarter to ten o'clock. She brought 111 passengers and a small freight. Purser Taylor has our thanks for the usual favors.

MARINE ACCIDENT.—The steamship Pacific, it is reported, struck a rock at Cape Mendicino, on her last trip down from Eureka, and sustained considerable damage.

BARON LISGAR.—Sir John Young, Governor-General of Canada, has been raised to the Peerage, with the title of Baron Lisgar.

GOING TO WIMBLEDON.—The Ontario (Canada) Rifle Association has decided to send a Canadian team to Wimbledon next year.

NOT INDICTED.—The Grand Jury did not find a true bill against Jas Kirk, charged with shooting with intent; nor against Daniel Freeman for Pound breach.

FIE! FOR SHAME, AMOR!—The Member for District No 2, perceiving that Bunster's chances for election are slim and ghostly, is endeavoring to shirk the responsibility of having put him forward; but it won't do. DeCosmos, feeling that Bunster would become a candidate for District No 2, conceived the brilliant idea of sending him to Nanaimo; and Bunster was weak and foolish enough to be made a catspaw of, and abandon a district where—in consequence of the notorious unpopularity of DeCosmos and his utter ignorance of agricultural matters he would have had a good show—for a district in which he has none. The valuable material of which a Council composed of Bunsters would consist may be imagined from the ready manner in which Arthur got caught in the trap set for him by Amor; and, the best of the joke is, that the Brewer won't know, until he reads this paragraph, why the Printer wanted to get him out of District No 2.

STILL IN THE FOG.—Our up-river contemporary is still deplorably floundering in the fog upon the tariff question, and raving piteously about Canadian whisky coming in free, to the complete destruction of everybody if the present tariff be not retained—apparently utterly oblivious to the fact that Canadian whisky, in common with all other Canadian manufactures and productions, will come in free alike under either tariff. But the funniest argument that has yet been presented against the Canadian tariff has just been discovered by our luminous contemporary in this—that the cultivation of wheat must be gone into more extensively *'because wheat cultivation is required for the rotation of crops!'* It is to be feared that our contemporary is as ignorant about agricultural chemistry as he has proved himself to be about political economy.

THE HONORABLE J. W. TRUTCH returned on the steamship Pelican, last night. Thus the last and chief of our Delegates has returned home in safety. As most of our readers are aware, Mr Trutch has been on a mission to London, as well as to Ottawa; and there is reason to hope that the former has been scarcely less successfully performed than the latter. He has just returned in time to be present at the sittings of the Executive during this week, when matters of great importance will be under consideration. The honorable gentleman was accompanied by Mrs Trutch, and we are happy to see them looking so well after their prolonged tour. They met with a hearty welcome at the wharf.

CARIBOO NEWS.—The drought has shortened the yield on William Creek, the Downie, Caledonian, Ballarat and several other companies were giving a good account of themselves.....Stout Gulch, Valley Mountain, Lowhee, and Dutch Creek were nearly up to average.....On Lightning Creek extensive preparations were in progress for continuing work through the winter.....An express to Germanson Creek has been started at William Creek by Mr Sylvester.....Mr John Muir, of the Eldorado Company on Lightning Creek, is a candidate for the Legislative Council. He is spoken off as possessing liberal ideas.

CATTLE AND FURNITRE.—At the residence of P Steel, Meares street, near Vancouver, Lumley Franklin will sell this morning all the well kept household furniture; a fine piano, engravings, etc. At the same time, in the adjoining lot will be sold cows, calves, work-oxen, steers, horses, wagons, plows, fast mare, buggy, etc. Full particulars are set forth in the advertisement. The sale will commence at 11 o'clock.

RIFLE MATCH.—On Saturday next our Volunteers will compete for a silver cup given to the Volunteers of British Columbia by Governor Musgrave, and also for a purse of Twenty Dollars given by Mrs Musgrave. Shooting for the cup will commence at 11 o'clock a m; for the purse, at 2 p m. All Volunteers to be in undress uniform. Rifles to have a minimum pull of six pounds.

THE MINSTREL TROUPE engaged by Mr Frank Richards for the Alhambra Hall arrived by the steamer Pelican last evening, from San Francisco. The names of the troupe are as follows:—Miss Susie Lee, Miss Alice Bansel, Messrs Chas Rhodes, G H Foster, Johnny Campbell and Tommy Arnold. The first entertainment will be given on Wednesday night.

CAPT LYONS.—That portion of the traveling public who have sailed with Capt Lyons will be glad to learn that he has been restored to service by the North Pacific Transportation Company, and that he arrived by the Pelican yesterday as first officer of that steamer.

RETURNED.—By the stmr. Pelican which arrived from San Francisco yesterday the following British Columbians returned: Hon J W Trutch and Mrs Trutch, Mrs John Dorman, Mr W H Oliver, mother and sister, J D Hewlings and Guy Huston.

PUT OFF.—Shooting for prizes had begun at New Westminster on Saturday last when a telegram from Victoria put a stop to the proceedings. The match will, we believe, come off on Soturday next.

FRUIT.—Messrs Pickett & Co, by the Pelican yesterday, received new limes, oranges and 6 crates of choice grapes in small boxes, which will be sold low.

EX MONTGOMERY CASTLE.—Messrs Janion, Rhodes & Co publish this morning a long list of new goods just received by them ex Montgomery Castle from Liverpool.

OUR THANKS are due Purser Vincent of the Pelican, and Mr M O'Connor, Wells, Fargo & Co's Messenger, for important favors.

LIEUT. STURT, R M L I, and wife, came by the Pelican yesterday. Lieut Sturt succeeds Lieut Beedon, late of the San Juan Garrison.

THE barkentine C L Taylor was announced to sail from San Francisco for Victoria on the 8th.

THE FLYING SQUADRON reached Valparaiso on the 14th August—53 days from Honolulu. All well.

Court of Assize.

Before Chief Justice Begbie and Mr. Justice Crease.

MONDAY, Oct 10th, 1870.

The Court met at 11 o'clock, A.M.

The following gentlemen were sworn in as Grand Jurors:—Thos Allsop, J A Grahame, T N Hibben, G S Findlay, A J Langley, E J Sawers, W J McDonald, Rout Harvey, P McQuade, Edw Mallandaine, J G Norris, C J Nicholson, J C Nuttall, J L Stahlschmidt, J R Stewart, Dr W F Tuzo, W C Ward, John Wilkie, Thos Wilson.

Judge Crease briefly addressed the Grand Jury, explaining their duties generally as Grand Jurors, and laying before them in a clear and lucid manner the nature of matters which legitimately pertained to their duty, pointed out the nature of the several offences embraced in the Calendar which he placed in their hands; remarking further that in consequence of some very important matter soon to be considered by the Government, and which would require the attendance of some of the officers of the Court, he would adjourn the Court from to-day until Friday next, suggesting, however, that the Jury might immediately report on the first indictment on the list, when the case would be brought before the Court to-day if a true bill was found.

CALENDAR.

Frank O'Neil—Assault with intent.
Jas Lambert, " "
Henry Lynch, " "
Ah Loon—Stabbing with intent.
Ah Loon, " "
Jas Kirk—Shooting with intent.
Daniel Freeman—Pound breach.
Quong Qui—Abduction.
Samuel Braverman—Arson.
Tom, an Indian—Wilful murder.
Jas Butler—Assault with intent.
Jim, an Indian—Wilful murder.
Quinam, an Indian—Wilful murder.
Abram Messara Congor—Attempt to rape.

The Grand Jury retired and in a few minutes returned a true bill against Frank O'Neil, Jas Lambert and Henry Lynch for assault with intent on Michael Hartt.

The accused were then placed in the dock and pleaded not guilty.

A jury was sworn and the Attorney-General on behalf of the Crown opened the case and called Michael Hartt, who testified that on the 25th of May last, about 3 o'clock in the morning, while acting as special Constable, he met the prisoners on Johnson street, who complained to him that they had been robbed, having slept on a bench in front of the King's Head Saloon. Some altercation ensued, when the prisoners assaulted him severely beating him on the head.

Other unimportant evidence was given; and the Attorney-General with much moderation addressed his case to the jury.

The prisoners not having any counsel, each replied to the charge. O'Neil, with considerable ability and much ingenuity, denied any intention of assault on Hart. He only resisted the attack upon Lynch. Lambert simply denied taking any part in the affray. Lynch partly admitted striking Hartt with a stone; but said Hartt first struck him with a stick over the eye. Lynch said he exonerated his fellow prisoners from any attempt at assault and whatever blame laid should be borne by himself alone.

The Judge briefly charged the jury, who retired, and after an absence of half an hour returned a verdict of acquittal of O'Neil and Lambert, and in the case of Lynch, guilty of simple assault.

The Court then discharged O'Neil and Lambert, and sentenced Lynch to 12 months imprisonment with hard labor, imprisonment to date from the 25th May last.

The Court adjourned until Friday next at 11 AM

The New Cabinet.

The San Francisco *Bulletin* of the 6th publishes the following:—

'Confederation is to be proclaimed at Victoria, British Columbia, and at Ottawa, on the 1st of July, 1871.

Orders have been forwarded to the Clyde by the Canadian Government, for the construction of three first-class steamers to ply between Victoria and this city.

A railway from Canada to the Sea Coast of British Columbia is to be commenced in the spring of 1872. A Dry Dock is to be constructed at Esquimalt, a Marine Hospital at Victoria, and a Penitentiary at New Westminster.

All the present officials of British Columbia are to be pensioned.

The following officials are to be appointed and paid by the Dominion:

Lieut-Governor—Sir James Douglas, or Hon Dr Carroll.
Indian Commissioner—Hon J S Helmcken.
Collector of Customs—William Wilson.
Post Office Inspector—H E Seelye.
Dominion Paymaster—James Fell.
Marine Hospital—Dr James Trimble.
Superintendent of Penitentiary—J G Norris.

The three Senators will be selected from the following:

Dr J W Powell, Hon H Holbrook,
W Fisher, J C Nicholson,
Dr Carroll.

Until the New Province shall adopt a responsible government the following officers will be appointed by the Dominion Government.

Attorney General—Geo Pearkes.
Surveyor General—Robert Homfray.
Auditor General—Lumley Franklin.
Lighthouse Commissioner—J A Raymur.

The names of Robert Beaven, A R Robertson and J G Mackay, are also mentioned as likely to hold office under the new system.

It is said in Ottawa that the present Governor of British Columbia, Mr Musgrave, will receive the appointment of Lord Lieutenant of Ireland, but we think this is very unlikely. He is more likely to go to Malta or Australia.

It will be noticed by those conversant with British Columbia politics that the new appointees are all of them gentlemen holding prominent positions in the Colony. Many of them have taken an active part in promoting Confederation, and others have been conspicuous for their attention to local politics for some years past.'

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits. *

LOCAL BREVITIES.—Mc Shack, the Indian boy sentenced to imprisonment for life for killing the settler Campbell at Beechy Bay, last year, has completed the term for which he was sentenced. He died on Sunday, and a jury summoned by the Coroner found that he died o natural causes.....The Enterprise did not reach port until 8 o'clock Sunday morning. The passengers were out all night in the fog; but the boat was safely anchored in Cadboro Bay. The Governor, Miss Musgrave, Mr Musgrave jr, Mrs Trutch, Miss Irving, H P Walker, Wm Wilson, Capt Clarke, J G Norris, Capt Cooper, Mr Mitchell, Mr Mohun, and a number of Cariboovites were among the passengers. Mrs Musgrave will return to-day ..... Our cotemporary has muddled—as he muddles everything—the paragraph about the new Cathedral. He should never again depart from his customary practice, of copying all important items from *The Colonist*.....Tenders for the interior mail service have been sent in by Mr Barnard, the present contractor, Pearson Bros, and Mr Gerow of Victoria.

VOLUNTARY LIQUIDATION.—The public will be sorry to hear that the Queen Charlotte Coal Mining Company, after expending upwards of $100,000 and five years' work in developing their fine seam of anthracite coal, have at last been forced into voluntary liquidation. At least, a resolution to that effect was passed at the last meeting of the shareholders, and a second meeting will be held to-morrow to confirm that resolution. No mining company was ever organized in the colony that possessed as fair prospect of success. The seam was good and well defined, the coal excellent, the market certain and remunerative, and the shareholders enterprising and plucky. A wharf, a tramway, and suitable buildings were erected, shafts sunk, and tunnels run, and thousands of tons laid bare; yet at the moment when the reward seems within their grasp, the company are forced into liquidation through want of means to move the fossil to a market!

MOUNT DOUGLAS QUARTZ AGAIN—Mr Claudet Government Assayer, has made a return of an assay of quartz, pulverized at the Bank of British North America by Messrs Piper and Cargotitch, who are the fortunate owners of the Mount Douglas quartz ledge. The return is 81 grains of gold. The ore was *average*, not picked. It will thus be seen that the yield is about 15 ounces, or about $255 to the ton of rock.

WHAT IS IT?—The Supreme Court was yesterday adjourned till Friday, in order to enable the Attorney-General to attend the meetings of the Executive Council. The important business which is to occupy the attention of the Government during this week is presumably connected with the new constitution and other matters arising out of the report which the Hon Mr Trutch will doubtless hand in.

THE Hudson Bay Company offer the beautiful and fertile farm at Langley, together with the farm buildings, to rent. The farm comprises 1500 acres of the best land on the Lower Fraser. Application should be made to Mr Finlayson, at the Company's office in the city.

LOWER RIVER ITEMS.—Mr W DeBeck received a severe fracture of the right leg at Burrard Inlet while cutting a log.....A rifle company will be formed at New Westminster.....The Emil de Girardin is loaded at Moody, Dietz & Nelson's mills.

EASTERN EGGS.—On the 23rd of last month a car-load of 8,100 dozen Chicago arrived at San Francisco. Finding no sale in the Bay City, they took the back track, and it was thought no little difficulty would be experienced in finding a market for them.

A NEW RAILWAY.—The Central Pacific Railroad authorities, it is said, are contemplating the early construction of a railway between San Francisco and Sacramento.

RELIGIOUS.—The Rev Mr Owen, Rector of St Paul's, Nanaimo, officiated at Christ Church in this city, on Sabbath. The Rev gentleman leaves for Nanaimo this morning.

THE ADELPHI.—Peter of the Adephi has added oysters—fat and fresh—to his bill of fare for lunch.

THE ship Pocahontas was towed to the Hasting's Mills yesterday, to take in her cargo of spars.

THE ship Shooting Star sailed from San Francisco for Nanaimo on Saturday.

THE propeller California sails on Thursday from Portland for Victoria.

THE ENTERPRISE will sail for New Westminster at 9 o'clock this morning.

ROBINSON'S

Celebrated Magic Soap

DIRECTIONS.

For doing a Large Family washing in Two Hours, of Five or Six Dozen Pieces.

1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover your white clothes to be washed, and let the soap dissolve; then put your clothes in, stirring them, and let them just come to a boil, then pour out clothes and water into a tub and let them soak twenty or thirty minutes, stirring them around in the tub occasionally to loosen the dirt. Such articles as collars, wristbands or any other article very dirty, should be rubbed through the hands a little while soaking in order to loosen the dirt before boiling.

2. While your clothes are soaking put the half of your cut soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your colored and woollen clothes use the same water you soaked and boiled your white clothes with only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking it very dirty. Then rinse in clean water warm as your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP as good as Common Soap for general house purposes.

French Medicines.

PREPARED BY

GRIMAULT & CO.

Chemists to H. I. H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public paper as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France, with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospitals, or in the practice of the first medical men, are authorised by the Government. This fact must be a guarrantee for the excellency of MESSRS. GRIMAULT & Co's medicines.

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

Patronized for more than twenty years by the Paris Physicians. Cures lymphatism, rachitism, scrofula, congestion of the glands of the neck, paleness and flabbiness of the flesh, loss of appetite, weakness of constitution, the various eruptions on the face, boils, pimples, itchings,—It is the best remedy against the first stage of consumption, and it is the most powerful depurative known.

DOCTOR LERAS'

(Doctor of Medicine.)

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruginous preparations of containing Iron and Phosphorous, which are the elements of the blood. It cures chlorosis, pains in the stomach, difficult digestions, dismenorrhea, anæmia, general debility and poorness of the blood, and agrees especially with the most delicate stomachs.

LUNG DISEASES.

Grimault's Syrup of Hypophosphite of Lime.

It is the best and the most rational of all remedies against consumption. Under its influence the cough abates, the night sweats cease, and the patient rapidly recovers health. It gives the same results in cases of coughs, catarrhs, hooping coughs and influenza. In comparing this syrup with the other sold under the same name, it will be easy to recognize the superiority of this preparation.

Therefore to avoid any substitution, please to require on the bottle the signature: Grimault and Co.

NERVOUS HEADACHE and NEURALGIA.

GUARANA.

A single powder of this natural vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa,

Digestive Powders, Pills & Elexir of

PEPSINE.

Of certain effect against nausea, pituite, heart-burn, gastritis, gastralgia, children's diarrhœa, inflamation of the mucous coats of the stomach and bowels, vomiting during pregnancy, jaundice, etc.

NO MORE COPABIA OR CUBERS.

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other Medicines have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe, recent and chronic cases of private disease. They are used in the Hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent and capsules in the more chronic cases.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S DIGESTIVE LOZENGES.

This delicious preparation is always prescribed by the most reputed medical men in France, in cases of derangements of the digestive functions, such as gastritis, gastralgia, long and laborious digestions, wind in the stomach and bowels, emaciation, jaundice and complaints of the liver and loins.

They are considered by physicians as being superior to the celebrated Vichy Lozenger.

Largesse's Syrup & Paste

OF SEA PINE SAP.

These two preparations are invalnable and taken with the utmost success for consumption and the various diseases of the chest, and especially for coughs, colds, catarrhs, influenza, hooping cough, bronchitis, asthma, and also for the different affections, of the urinary organs

FERRUGINOUS SYRUP.

OF PERUVIAN BARK.

Superior to all the compounds of Iron for all diseases of the chest, fainting, nervous affections, painful digestions and impoverished blood; it is recognized as the best and most agreeabl remedy.

TO PHYSICIANS.

NEW YOR August 15th, 1868.

Allow me to call your attention my PREPARATION OF COMPOUND EXTRACT BUCHU the component parts are, BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES:

MODE OF PREPARATION—Buchu, in vacuo. uniper Berries, by distillation, to form a fine gin. extract] ed by displacement with spirits obtained from Juniper Berries; very little sugar is used and a small proportion of spirit. It is more palatable than any now in use.

Buchu as prepared by Druggists, is of a dark color. It is a plant that omits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates, the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflamation exists. In this you have the knowledge of the ingredients and the mode of preparation

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation.

With a feeling of profound confidence.

I am, very respectfully,

H. T. HELMBOLD,

Chemist and Druggist of 10 year's experience

(From the largest Manufacturing Chemists in the World.)

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers,

Lillooet District,

To the Electors of Clinton and Lillooet District

GENTLEMEN,—You want a man to represent you in the Legislative Council. A good many of you have urged me to seek the representation of the District. I offer my services.

I am in favor of Confederation, because it is the policy of the Home Government, irresistible, and it will end a system that means nothing but taxation.

The people who have voted pensions to public officers for important services rendered to their country, have exhibited sure signs of common sense, justice and gratitude. Pensions to such public officers as ours would be evidence of extreme folly.

The chief duty of your representatives at the next meeting of the Legislative Council, will be to examine the contract we are about to make with Canada, and if there are in it any conditions detrimental to the interests of this colony, to exhibit their injustice and demand amendment.

I am no orator. The majority of those who try to be eloquent are merely nonsensical; they forget that this is a practical age, and that a grain of common sense is better than a ton of chaff. "I HAD RATHER SPEAK FIVE WORDS WITH MY UNDERSTANDING THAN TEN THOUSAND WORDS IN AN UNKNOWN TONGUE"

I value the friendship and goodfellowship that exist between myself and the majority of the men in the District; they will be pleased to hear that I shall not solicit one vote as a personal favor. Friendship and goodfellowship should not presume to stand between you and your duty. Elect the best man. If you elect me I promise I shall make gentlemen ashamed of having voted pensions to themselves for duties not discharged.

I have the honor to be a firstrate ploughman, and your obedient servant,

GECRGE A. KELLY

REPLY.

To ELECTORS OF NANAIMO-COMOX DISTRICT,

GENTLEMEN:—In response to the Requisition you have been kind enough to present to me, I cheerfully consent to be put in nomination for the representation of your District in the Legislative Council; and, in doing so, it will hardly be necessary to assure you that, if elected, my best efforts shall be earnestly directed towards promoting the interests of your District in particular, and those of the Colony in general.

In accepting your nomination and soliciting the suffrages of the District, it may be expected that I shall, in accordance with long established custom, indicate the outlines of my political creed; and yet the prominence with which my political views have been before the public would almost seem to render any exposition of them unnecessary at the present time. It may, however, be proper that I should touch upon a few cardinal principles.

The subject of confederation completely overshadows every other political question at the present time; and I will tell you frankly that I am in favor of accepting that change upon the basis now officially before the public believing that in it and through it the country will obtain very great financial and political advantages.

There are two open questions of considerable importance which will be submitted to the people, through their representatives, viz, a choice of local constitution and a choice of Customs Tariff. I hold the people of British Columbia to be fit for, and entitled to, self-government, and I believe it will be their duty and interest to contend for full political rights as an immediate result of union. The acceptance of the Canadian Tariff, with its ample protection to stock raisers and its long and ever-extending free list, I believe to be in the true interest of every community; it would relieve the people of a load of taxation for Federal purposes and would tend to stimulate industry.

A Reciprocity Treaty with the United States, under which our coal and other products might find an open and ready market, I conceive to be amongst the most urgent needs of the colony; and any feasible movement tending thereto shall ever have my earnest and hearty support.

The education of the young must ever be regarded as one of the first duties of a civilized government, and I cannot hesitate to say that the existing educational system is as ill-adapted as the provisions thereunder are inadequate to the circumstances and necessities of the country.

Upon the subject of Retrenchment in the governmental expense, it will only be necessary to say that the most effective remedy will be found in Confederation with Responsible Government.

It need only be added that, in seeking to carry out my views upon these and other questions, I shall, if elected, ever regard it as a first duty to see that your District—among the most important and productive in the united colony—shall have its full share of legislative attention and expenditure of which it has been so notoriously and unjustly deprived in the past.

Intending, as I do, to take an early opportunity of visiting every part of the District and meeting the electors personally, and expounding more fully my political views, I trust these few hasty and general remarks may suffice for the present.

I have the honor to be, Gentlemen,

Your obedient servant,

se29 d&w JOHN ROBSON.
